BTS WORLD TOUR 2026

Complete Guide · Dates · Cities · What Fans Can Expect

After years of solo projects and mandatory military service, the wait is finally over. All seven members of BTS — RM, Jin, SUGA, j-hope, Jimin, V, and Jungkook — are reunited and hitting the world stage in 2026. For ARMY, this isn't just a concert tour. It's the comeback of a lifetime.

The BTS Legacy: Built for Moments Like This

BTS has spent over a decade rewriting the rules of global pop music. From their Wings Tour in 2017 to the record-shattering Love Yourself World Tour (2018–2019) — which grossed over $196 million and sold out stadiums from Wembley to the Rose Bowl — BTS proved that a K-pop act could command the world's biggest stages. Their Permission to Dance on Stage series (2021–2022) marked a triumphant return after the pandemic silenced the Map of the Soul Tour before it could begin. Every tour was bigger, bolder, and more emotionally resonant than the last. The 2026 tour is the natural culmination of that evolution.

BTS World Tour 'ARIRANG' 2026: The Official Details

Announced on January 13, 2026, the BTS World Tour 'ARIRANG' is the group's fourth major world tour and by far their most ambitious. It supports their fifth studio album, Arirang — released March 20, 2026 — a title rooted in a traditional Korean folk song symbolising longing, identity, and return. The timing couldn't be more fitting.

The tour spans 82+ dates across 34 cities in 23 countries, running from April 2026 through March 2027. Bloomberg called it 'their largest world tour to date,' and the numbers confirm it. Tickets for the North American and European legs sold out within hours. Mexico's President even personally appealed to South Korea's President to add more shows — that's the level of demand we're talking about.

What Fans Can Expect

The 360-Degree Stage

The production alone is worth the ticket price. The ARIRANG tour features a 360-degree stage — a first for BTS in stadium settings — meaning every seat has an unobstructed, immersive view of the performance. No bad seats, no blocked sightlines.

The Setlist

Expect a powerful blend of new Arirang tracks alongside fan-favourite classics: "Spring Day," "Dynamite," "Butter," "Blood Sweat & Tears," and "IDOL" are near-certainties. Members are also expected to perform solo songs, adding a fresh emotional layer to an already historic reunion show.
